Missioncraft 2018 - Leadership in Disaster Relief

Melbourne

5 day workshop

24 - 28 June 2018 inclusive

About the workshop:

Missioncraft is the art and science of preparing and conducting successful field operations. This intensive workshop explores controversies and enhances skills in the professional practice of international disaster relief. The workshop is offered to selected medical and public health professionals who deploy to disasters as full-time, field-based, hands-on providers and who expect to serve as organisational team leader or medical coordinator. It is designed for experienced professionals in pursuit of mastery, and is not intended for medical tourists

Target Audience:

- Health care workers with current board certification or specialty society fellowship in clinical medicine or public health.
- Disaster management professionals with authority to lead health teams from governmental (civil or military), nongovernmental, Red Cross, or UN agencies.
- Humanitarian professionals with 1 year or more of disaster field experience.
- Persons anticipating future deployment to disasters as medical team leader or medical coordinator.

Key Topics:

- Pre-departure preparation
- Field briefing
- Rapid epidemiological assessment
- Field reporting
- Standardised case management
- Public health technical toolkits
- Field project and team management
- Contingency planning and lethal situation management
- Perfect storms - field agency, cluster system, and donor failures
- Dysfunctional staff
- VIPs and curious non-producers (politicians, princes, and movie stars)
- 10 key deliverables of medical coordinators
- Career development and networking

Educational Methods:

Multi-modal in a classroom setting

Classroom Venue:

Monash University
 533 St Kilda Road
 Melbourne

Cost:

Workshop fee is \$3,500.00 AUD per person (incl. GST). This fee covers reference manual, course materials, photocopy use, daily catering and conference dinner. Selected participants from developing countries may be offered tuition assistance

Admission to the workshop is by approval. Participant numbers are limited.

Enquires: Jessica Callaghan +61 3 9903 0305 or med-emergency.education@monash.edu

ABOUT THE FACULTY:

The workshop is presented in collaboration with the Disaster Medical Coordination International Society. The Society is a private, non-profit, humanitarian, technical organisation based in Washington, DC, which engages faculty with expertise in inter-disciplinary, inter-agency, and international best practices in disasters.

Each faculty member possesses the following qualifications:

- Current specialty board certifications or specialty society fellowships in clinical medicine and public health
- Organisational experience as disaster medical coordinator or team leader for governmental, non-governmental, United Nations, and Red Cross organisations
- Field experience in over two dozen countries on five continents
- Language fluency in two or more official UN languages
- National or international awards for field activities from governmental, non-governmental, and Red Cross organisations

Faculty anticipated for the 2018 workshop:

David A. Bradt, MD, MPH, FACEP, FACEM, FAFPHM, DTM&H

Christina M. Drummond, AM, MBBS, DOBst(RCOG), DTM&H, FRACP, MPH, MAE, FAFPHM
